### **Plumbing Permits and Landscape Irrigation Systems**

Chisholm Trail Special Utility District adopted the 2000 Uniform Plumbing Code. The District requires that a plumbing permit be issued and all new and modified plumbing be inspected by a State Licensed Plumbing Inspector. Plumbing permits are available by completing an application and submitting it to the District office. There is NO CHARGE for the permit and it is valid for one (1) year.

Please be advised that the District requires a plumbing permit and an inspection on all newly installed irrigation and sprinkler systems. These systems can only be installed by an Irrigation System Installer licensed by the Texas Commission on Environmental Quality (TCEQ) or other approved installer in accordance with TCEQ rules. The licensed installer must first obtain a permit from the District prior to installation. Additionally, there is a \$60 fee for inspection of the system assessed by the District. This fee can be paid in advance or can be billed to the customer with their regular monthly water bill.

A proper backflow device must be installed on the system, tested, and results submitted to the District within thirty (30) days of installation. A list of licensed backflow testers is included on the back for your convenience.

District plumbing inspections are performed by Roadrunner Inspection Services, LLC. Customers requiring inspections should contact Roadrunner Inspection Services, LLC directly by calling **(512) 748-9764** to schedule an inspection.

Should you have additional questions please call the District office at (254) 793-3103.

Sincerely,  
Chisholm Trail S.U.D.
